

What We Do

Marycare's singular mission is to *break the vicious cycle of poverty* in communities marginalized and isolated because of their ethnic and social economic status. Education is one of the programs we sponsor to carry out our mission.

Skill Acquisition Program for Youths

- Youth unemployment is a menace in Nigeria to say the least. One in every 5 youth you see in Ejemekwuru has no job. To address this problem, Marycare has identified Resource entities from various fields such as auto mechanics, cobblers, iron welders, Seamstress, catering etc, based on the interests of the youths to teach the selected youth the needed skills to survive in the 21st century, to start their own small companies or businesses and become self reliant. The selected individuals will be trained in any of the foregoing trades on behalf of GWHA & Marycare
- Marycare in the past provided Scholarships for over 340 children to go to secondary school. The first set of our scholarship children has graduated from college.
